

### Statistics Map

This grid reflects the size of a region or country relative to the total size of these geographies together.

Can you use blocks on the grid to represent the size of population instead?  
**Portugal's** population is 25%, **Cyprus's** 3%, **Catalonia's** is 18%, **Greece's** is 26%, **Attica's** is 9% and is part of **Greece**, **Flemish Region's** is 16%, **Brussels-Capital Region's** is 3% and **Walloon Region's** is 9%.

Each geography has its individual blocks of the same color but white blocks can be used by any.
